La Jolla, CA 92037*

*Dear PocketMac,*

*I would like to express my satisfaction with your PocketMac for Blackberry synchronization software. Your product has rendered my Blackberry 7290 doubly useful: already it allowed me to maintain calendar and contacts in tight coordination with my Embassy office, which is equipped with Microsoft Outlook, but, thanks to you, my Entourage calendar on my personal Mac laptop is now part of the trio, updating them and always up to date. PocketMac for Blackberry has simplified my life and given greater efficiency to the office.*

*Thank you for developing such a fine product.*

*Sincerely,*

*Aziz Mekouar*
